### **⇔** Education

## University of Maryland - College Park

Dual BS in Computer Science (Machine Learning) and Mathematics December 2025 | GPA: 3.384 University, CS Departmental Honors; BS/MS; Dean's List

- **AI/ML**: Graduate NLP; HRI/Embodied AI; Computer Vision;; Intro to: Multimodal DL, AI, ML, Data Science
- Math: Calc III; Advanced Linear Algebra; Differential Equations;; Advanced Calculus; Abstract Algebra;; Mathematical Finance: Derivatives & Stochastic Models;; Transform Methods; Numerical Analysis
- **CS**: Quantum Computing; Algorithms; Data Structures; Computer Systems; Object-Oriented Programming; Organization of Languages
- Stat: Applied Prob&Stat; Probability Theory

## **Publications**

- Ipelets for the Convex Polygonal Geometry, published at SoCG 2024, 2024
- AgreeMate: Teaching LLMs to Haggle, published at arXiv, 2024

## < Projects</p>

### Vizier | Team Lead/ML Developer

- Al-powered personalized newsletter platform; MVP built for Bitcamp 2025
- Test-time MoE agentic architecture improving context retrieval via documentexpert LLMs

# QSafe | Solo Developer

password manager using lattice-based cryptography Secure Docker manager and end-to-end

Open-source Python/Rust quantum-safe

encrypted CLI-container protocol; MVP for Bitcamp 2023 CoronaSafe | Team Lead/Backend Developer

## Python/Flutter app for global COVID-19 risk

- assessment using time-weighted foot traffic and urban density analytics **Award:** Congressional App Challenge
- Winner: 2021 District MD08 Recognition: Guest Speaker at 2022 US
- Yourself event Resourceful | Team Lead/Backend

Patent and Trademark Office APPLY

# NLP-driven matching tool connecting

(NLTK, spaCy, semantic similarity) **Award:** Best Education Award: 2022 Blairhacks\_5 Hackathon

underrepresented students to resources

### Programming: Python, C/C++, Fullstack Development, APIs, DevOps, Webhosting,

Developer

- Design Paradigms Familiar: Java, Rust, Lua, MATLAB, Flutter/Dart, HTML5, CSS3, JavaScript, Assembly
  - ML/AI: Transformers, Agentic LLMs, MCP, Context Engineering, GraphRAG, Deep RL, Supervised/Unsupervised Learning, Genetic
- Algorithms, GANs Data Science: Statistical Analysis, Data Processing

Finance: Brownian Motion, Black-Scholes,

Arbitrage Pricing, Stochastic Calculus, Delta

- Hedging Tools & Technologies: Git, GitHub/Lab, Docker, Linux, Bash, WSL2, Python,
- FastAPI, React, Flask, RESTful, PostgreSQL, NeonDB, Neo4j, LiteLLM, Claude Code SDK, MCP, Google Agent ADK, Google Agent2Agent (A2A), Pocketflow, OpenAl API, HuggingFace, PyTorch, NumPy, Pandas, Dask, NLTK, SciPy, spaCy, scikit-learn, Seaborn, Matplotlib, TensorBoard, Selenium,
- BeautifulSoup, LaTeX, PowerShell, Memory Profiler, ROS, IBM Qiskit, AWS EC2, AWS
- Fargate, AWS Lambda, AWS S3, AWS Bedrock, AWS SageMaker Soft Skills: First-Principles Problem
  - Solving, Leadership, Technical Writing, Selfteaching, Iterative Experimentation Certifications: Complete Linear Algebra -Udemy, Algorithmic Toolbox - UCSD, Game
- Theory Stanford Awards: National Merit, Dean's Scholarship, Eagle Scout, Congressional App Challenge
- Winner, ISKF Black Belt Languages: English (Native), Bengali

(Native), Hindi (Intermediate), Spanish

(Intermediate), French (Beginner)

# Experience

### Tilli Software

Al Engineering Intern Edge:XDEX:Agent July 2025 - Present | Remote

- **Built** an end-to-end MVP of Tilli Agent using Pocketflow and the Google Agent ADK to act in utility customer web portals
- **Designed** the Scrape2MCP paradigm to scrape arbitrary sites and extract structured info for API/browser actions, generating template-derived MCP servers with the Claude Code SDK
- **Architected** the Tilli MCP Super-Server as a shared tool 'store' for user agents
- **Optimized** agent deployment stack on AWS Bedrock Agentcore, increasing cache-hit rate; lowering p50 latency and token cost
- **Devised** automated agent performance logging for asynchronous analysis
- **Leading** launch of Tilli Agent *initially* serving 150k+ users; planned rollout to ~3M across Tilli Software's client base

## Johns Hopkins University Applied **Physics Laboratory** Computer Science Intern - Interim Security

Clearance Force Projection Sector: Ocean Systems &

**Engineering Group** May 2024 - Aug 2024 | Laurel, MD

**Implemented** iteratively enhanced Generative Adversarial Imitation from Observation (GAIfO) agents, substantially outperforming baseline imitation models

**Developed** an optimized GAIfO variant

- leveraging architectural insights that outperformed prior versions over long horizons Enhanced GTRI's SCRIMMAGE mass-
- simulation framework with increased scenario complexity and expert controller functionality **Revamped** GitLab CI pipelines, boosting
- speed and efficiency **25% while** addressing security vulnerabilities Optimized project-wide Docker image used across repositories, reducing pipeline build
- times and memory footprint **50% faster** builds; 40% better memory efficiency **Led** winning team for sector Intern Challenge delivering a secure, non-GPS
- **Authored** literature reviews on SoTA Transformer-based models, unlocking *direct* insights for future project strategies

intra-campus navigation prototype

### Research Intern Breathing Analysis Project

**University of Maryland MIND Lab** 

October 2023 - December 2024 | College Park, MD **Developed** a visualization dashboard and

dataset structures for large-scale breath-

- data analysis and downstream feature extraction **Optimized** dataset loading with Dask and multithreading 400%+ faster throughput
- **Implemented** supervised learning approaches for improved breath
- **University of Maryland CMNS** Student Researcher Crowd Simulation

segmentation

interaction

MD **Explored** applications of non-Euclidean geometries to crowd navigation and

September 2024 - June 2025 | College Park,

**Applied** transformer-based models to language-directed crowd navigation

# **University of Maryland CMNS**

CMSC351H (Algorithms Honors) Spring 2024 | College Park, MD Co-designed and graded homeworks,

Lead Teaching Assistant

exams, and lecture material for 38 honors students; held weekly office hours for advanced topic support
