⇔ Education

University of Maryland - College Park

Dual BS in Computer Science (Machine Learning) and Mathematics December 2025 | GPA: 3.384 University, CS Departmental Honors; BS/MS; Dean's List

- **AI/ML**: Graduate NLP; HRI/Embodied AI; Computer Vision;; Intro to: Multimodal DL, AI, ML, Data Science
- Math: Calc III; Advanced Linear Algebra; Differential Equations;; Advanced Calculus; Abstract Algebra;; Mathematical Finance: Derivatives & Stochastic Models;; Transform Methods; Numerical Analysis
- **CS**: Quantum Computing; Algorithms; Data Structures; Computer Systems; Object-Oriented Programming; Organization of Languages
- **Stat**: Applied Prob&Stat; Probability Theory

Publications

- Ipelets for the Convex Polygonal Geometry, published at SoCG 2024, 2024
- AgreeMate: Teaching LLMs to Haggle, published at arXiv, 2024

< Projects</p>

Vizier | Team Lead/ML Developer

- Al-powered personalized newsletter platform; MVP built for Bitcamp 2025
- Test-time MoE agentic architecture improving context retrieval via documentexpert LLMs

QSafe | Solo Developer

- Open-source Python/Rust quantum-safe password manager using lattice-based cryptography
- encrypted CLI-container protocol; MVP for Bitcamp 2023 CoronaSafe | Team Lead/Backend Developer

Secure Docker manager and end-to-end

Python/Flutter app for global COVID-19 risk

- assessment using time-weighted foot traffic and urban density analytics **Award:** Congressional App Challenge
- Winner: 2021 District MD08 Recognition: Guest Speaker at 2022 US
- Patent and Trademark Office APPLY Yourself event

Developer NLP-driven matching tool connecting

Resourceful | Team Lead/Backend

(NLTK, spaCy, semantic similarity) **Award:** Best Education Award: 2022

underrepresented students to resources

Blairhacks_5 Hackathon

Programming: Python, C/C++, Fullstack Development, APIs, DevOps, Webhosting,

- Design Paradigms Familiar: Java, Rust, Lua, MATLAB, Flutter/Dart, HTML5, CSS3,
 - JavaScript, Assembly ML/AI: Transformers, Agentic LLMs, MCP, Context Engineering, GraphRAG, Deep RL,
- Supervised/Unsupervised Learning, Genetic Algorithms, GANs Data Science: Statistical Analysis, Data Processing
- Finance: Brownian Motion, Black-Scholes, Arbitrage Pricing, Stochastic Calculus, Delta Hedging
- Tools & Technologies: Git, GitHub/Lab, Docker, Linux, Bash, WSL2, Python, FastAPI, React, Flask, RESTful,

PostgreSQL, NeonDB, Neo4j, LiteLLM,

- Claude Code SDK, MCP, Google Agent ADK, Google Agent2Agent (A2A), Pocketflow, OpenAl API, HuggingFace, PyTorch, NumPy, Pandas, Dask, NLTK, SciPy, spaCy, scikit-learn, Seaborn, Matplotlib, TensorBoard, Selenium,
- BeautifulSoup, LaTeX, PowerShell, Memory Profiler, ROS, IBM Qiskit, AWS EC2, AWS Fargate, AWS Lambda, AWS S3, AWS Bedrock, AWS SageMaker

Soft Skills: First-Principles Problem

teaching, Iterative Experimentation

Solving, Leadership, Technical Writing, Self-

Experience

Tilli Software

Al Engineering Intern Edge:XDEX:Agent July 2025 - Present | Remote

Built an end-to-end MVP of Tilli Agent using

act in utility customer web portals **Designed** the Scrape2MCP paradigm to scrape arbitrary sites and extract structured

Pocketflow and the Google Agent ADK to

- info for API/browser actions, generating template-derived MCP servers with the Claude Code SDK
- **Architected** the Tilli MCP Super-Server as a shared tool 'store' for user agents

Optimized agent deployment to maximize

- token cache hits on AWS Bedrock Agentcore, reducing latency and cost increased cache-hit rate; lowered p50 latency and token cost
- **Devised** automated agent performance logging for asynchronous analysis
- **Leading** launch of Tilli Agent *initially* serving 150k+ users; planned rollout to ~3M across Tilli Software's client base

Johns Hopkins University Applied **Physics Laboratory**

Computer Science Intern - Interim Security Clearance

Force Projection Sector: Ocean Systems & **Engineering Group** May 2024 - Aug 2024 | Laurel, MD

Implemented iteratively enhanced Generative Adversarial Imitation from Observation (GAIfO) agents, substantially outperforming baseline imitation models

Developed an optimized GAIfO variant

- leveraging architectural insights that outperformed prior versions over long horizons
- **Enhanced** GTRI's SCRIMMAGE masssimulation framework with increased scenario complexity and expert controller functionality
- **Revamped** GitLab CI pipelines, boosting speed and efficiency 25% while addressing security vulnerabilities
- Optimized project-wide Docker image used across repositories, reducing pipeline build times and memory footprint **50% faster** builds; 40% better memory efficiency
- Challenge delivering a secure, non-GPS intra-campus navigation prototype **Authored** literature reviews on SoTA

Led winning team for sector Intern

insights for future project strategies **University of Maryland MIND Lab**

Transformer-based models, unlocking *direct*

Research Intern Breathing Analysis Project October 2023 - December 2024 | College Park,

Developed a visualization dashboard and

MD

- dataset structures for large-scale breathdata analysis and downstream feature extraction **Optimized** dataset loading with Dask and
- Implemented supervised learning approaches for improved breath

multithreading 400%+ faster throughput

segmentation **University of Maryland CMNS** Student Researcher

Crowd Simulation

interaction

September 2024 - June 2025 | College Park, MD **Explored** applications of non-Euclidean

Applied transformer-based models to language-directed crowd navigation

geometries to crowd navigation and

University of Maryland CMNS Lead Teaching Assistant

CMSC351H (Algorithms Honors) Spring 2024 | College Park, MD

Co-designed and graded homeworks, exams, and lecture material for 38 honors advanced topic support

students; held weekly office hours for

- **Additional Qualifications** Certifications: Complete Linear Algebra -
 - Udemy; Algorithmic Toolbox UCSD; Game Theory - Stanford Awards: National Merit; Dean's Scholarship;
- Eagle Scout; Congressional App Challenge Winner; ISKF Black Belt Languages: English (Native); Bengali

(Native); Hindi (Intermediate); Spanish

(Intermediate); French (Beginner)
